PROJECTS

Ecommerce Website

[GitHub Repository](#)

Developed and deployed a modern shopping website using Node.js, Express framework and MongoDB database. Used MVC framework to decouple and architect the backbone of the server.

Social Network REST API

[GitHub Repository](#)

Developed a REST API, coupled with a React based frontend with real time messaging features using Node.js, Express framework, MongoDB database, Postman and Socket.io.

Flickr Photo Finder

[GitHub Repository](#)

A web application which fetches pictures of searched keywords from Flickr public feed, a popular image hosting platform, using Flickr Public API. Made using HTML, CSS, JavaScript, AJAX and jQuery.

To Do List App

[GitHub Repository](#)

A highly customisable web application which lets users maintain multiple lists and add, remove and prioritise items among the lists. Made using HTML, CSS and JavaScript.

SKILLS
